

■specification

model	ISM3600	ISM1800
item		
Dimensions(W×D×H)	2,540 x 1,465x 2,440 mm	1,710 x 1,470 x 2,240 mm
Minimum position width	-	-
Weight	1,000kg (empty) - 1,500kg	850kg (empty) - 1,150kg
Power supply	230V;50/60Hz single phase	
Power consumption	max. 2.0kWh	max. 2kWh
Max air consumption	-	-
Air supply	-	-
Operating System	Microsoft Win XP/Win7/Win8 : Microsoft Win Server 2003/2008/2012	

model	ISM2000	ISM1100	ISM500
item			
Dimensions(W×D×H)	2,560 x 1,635 x 2,440 mm	1,760x 724 x 2,220 mm	1,770x 800 x 2,220 mm
Minimum position width	-	-	34 x 620 x 100 mm
Weight	1,350kg (empty) - 1,650kg	460kg (empty) - 600kg	350kg-850kg
Power supply	230V;50/60Hz single phase		
Power consumption	max.1.5kWh	max. 0.82kWh	max. 0.8kWh
Max air consumption	35L/h	-	-
Air supply	0.4~0.6MPa	-	-
Operating System	Microsoft Win XP/Win7/Win8 : Microsoft Win Server 2003/2008/2012		

Intelligent Storage Management System

ISM Series

JUKI®

-Your solution partner-  
80th  
Global & Innovative

ISM Series handles all your component management needs

JUKI CORPORATION HEAD OFFICE  
An environmental management system to promote and conduct the following:  
(1) Eco-friendly development of products and technologies  
(2) Green procurement and green purchasing  
(3) Energy conservation (reduction in carbon-dioxide emissions)  
(4) Resource saving (reduction of papers purchased, etc.)  
(5) Reduction and recycling of waste  
in the activities of research, development, design, sales, distribution, and maintenance services of industrial sewing machines and industrial robots, etc., including sales and maintenance services of data entry systems.

JUKI®

MANUFACTURER : ESSEGI SYSTEM SERVICE S.r.l.  
Distributor: JUKI CORPORATION  
INQUIRY : JUKI AUTOMATION SYSTEMS CORPORATION  
2-11-1, Tsurumaki, Tama-shi, Tokyo 206-8551, JAPAN  
TEL.81-42-357-2293 FAX.81-42-357-2285

■JUKI Specifications and appearance may be changed without notice.  
■This catalogue prints with environment-friendly soyink on recycle paper.

Oct-2017/Rev.06

# ISM Series's Feature

*How many items can you check?*

- 1 ☐ Provides humidity control
- 2 ☐ Supports components in a bag or strip tape
- 3 ☐ Process components using first in first out.
- 4 ☐ Labor savings results in quick ROI
- 5 ☐ Intelligent storage simplifies parts retrieval
- 6 ☐ Simplifies parts retrieval
- 7 ☐ Eliminates duplication orders
- 8 ☐ Allows for more efficient use of work force
- 9 ☐ Eliminates interruptions in stocking and resupply
- 10 ☐ Reduces data base management of parts
- 11 ☐ Reduces inventory counts
- 12 ☐ Improves real-time resupply of parts

**\*ISM series provides solutions that save both time and money.**

## 5 points of ISM Series' s Feature

Case correspondent

Corresponds for various of supply style

Integrates into a Smart Factory

Efficiency improvement by system integration

Space savings

Reducing 70%

Moisture control

Controls Component moisturize to less than 5%

Automatic component In-Out

Pull 27 to 54 reels at a time "pulls kits"

## 1. Case correspondent

Corresponds for various of supply style

- ◆Corresponds to ESD case
- ◆Maximum storage can be up to 72mm width

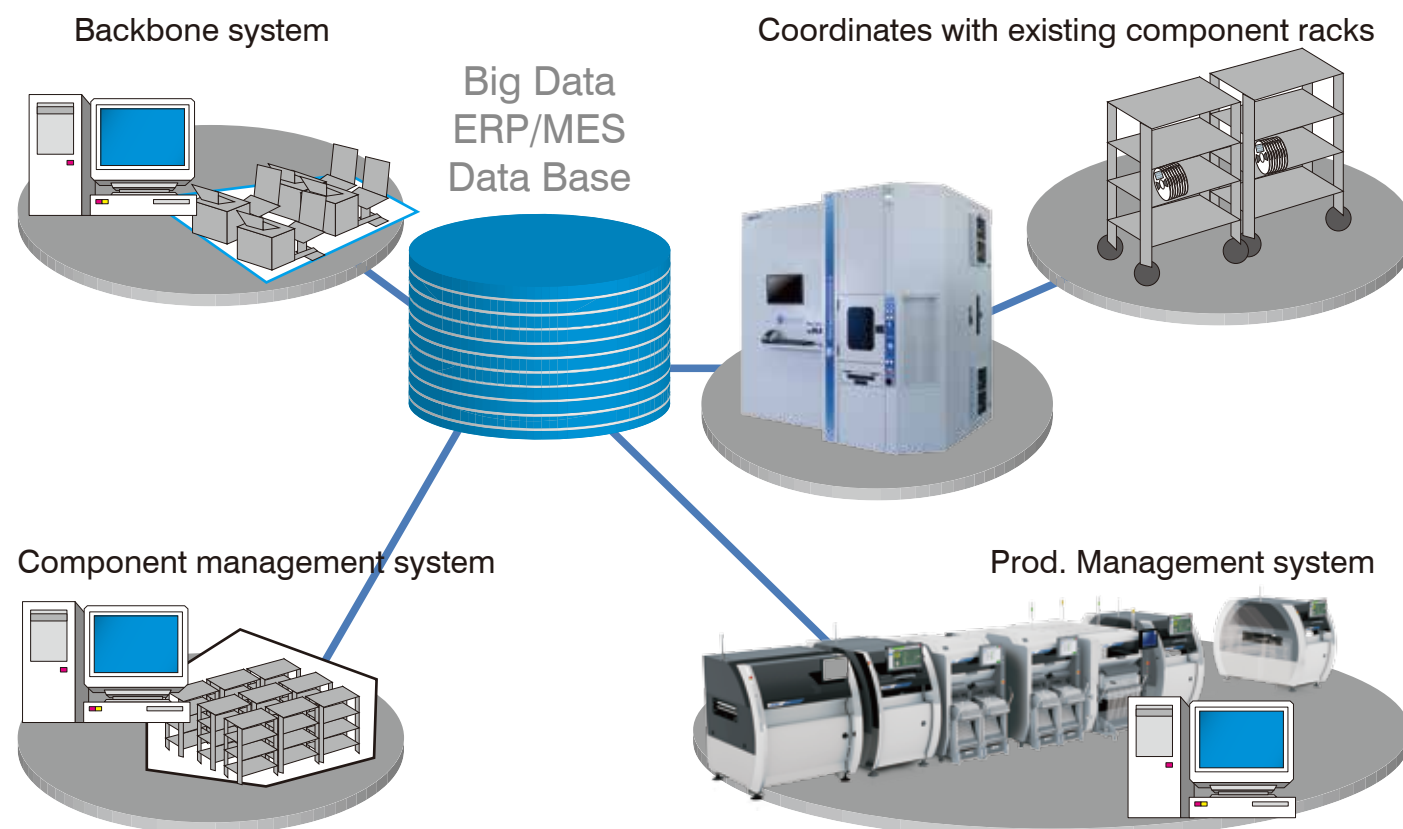

## 2. Realize factory solution

Efficiency improvement by system integration

- ◆Make further smart solution of purchasing operation by precise component management.

## 3. Space savings

Reducing 70%

- ◆Reducing minim space and creating large storage space

Provides a smart warehouse management system with large storage space.

## 4. Moisture control

Component controls moisturize less than 5%

- ◆Manages Remaining time for MSD component
- ◆Moisture traceability feature
- ◆Eliminates manual MSD tracking

Maintains 5% or less

Eliminates the need for vacuum packing by using cases for MSD component

## 5. Automatic component In-Out

Maximum 27 or 54 at a time

- ◆No operator during extraction or return operation
- ◆Eliminates wrong parts being pulled
- ◆First-in First-out is available

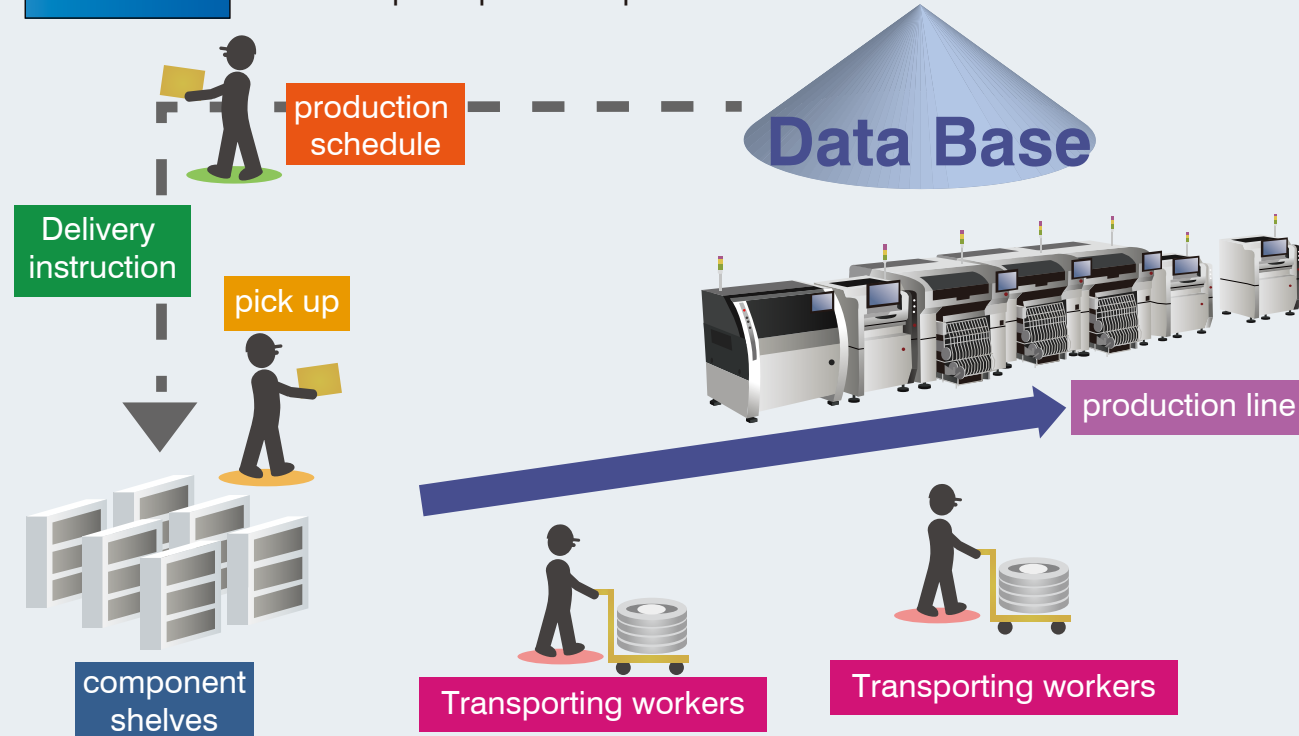

A stack of 27 reels

Pressing one button and start

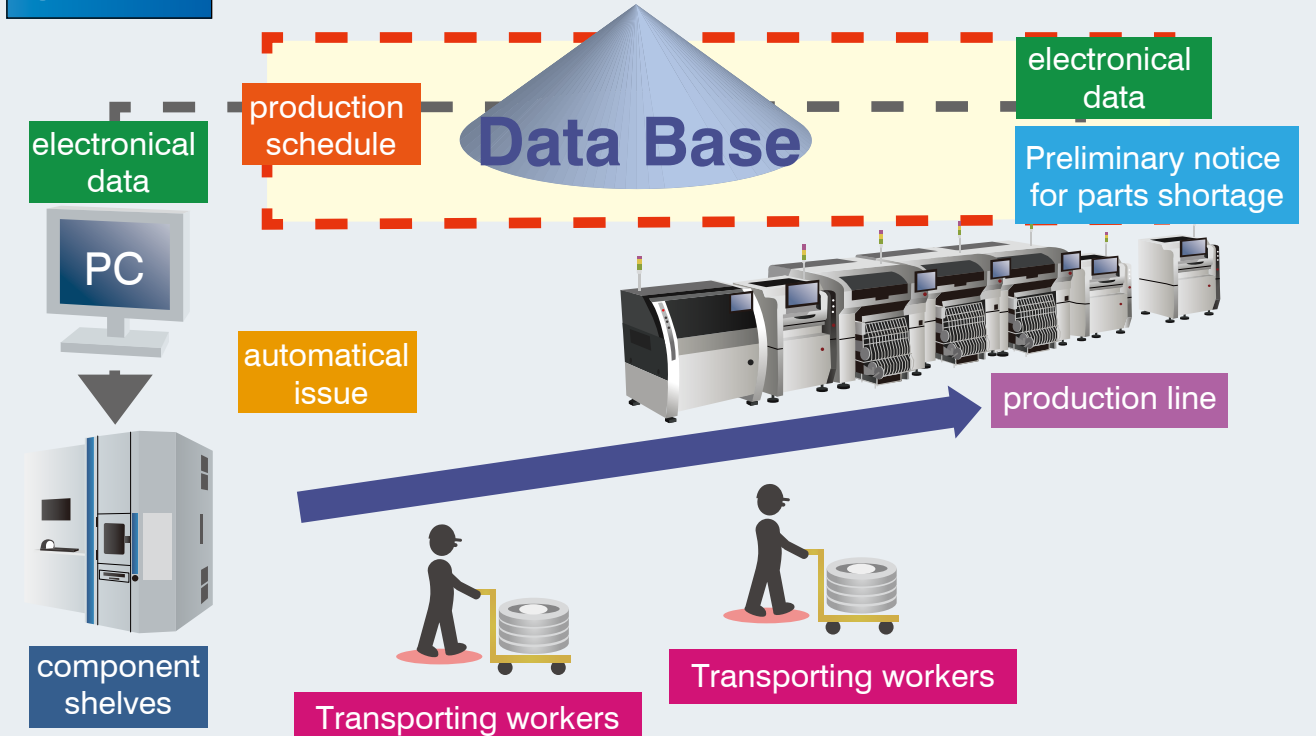

## Step suggestion for SMART FACTORY

**Current** Based on parts production schedule, operator print components delivery table and pick up the components.

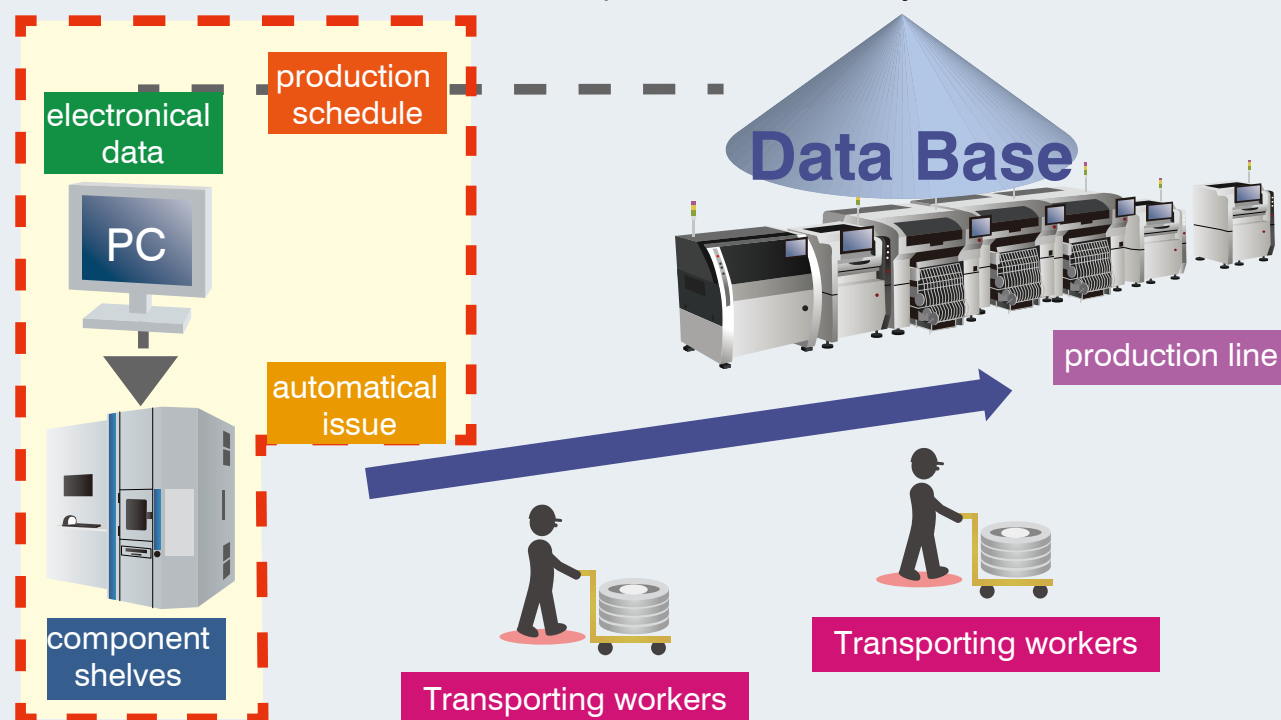

### STEP2

In case of shortage out of components in production line, ISM receives automatic issue order.

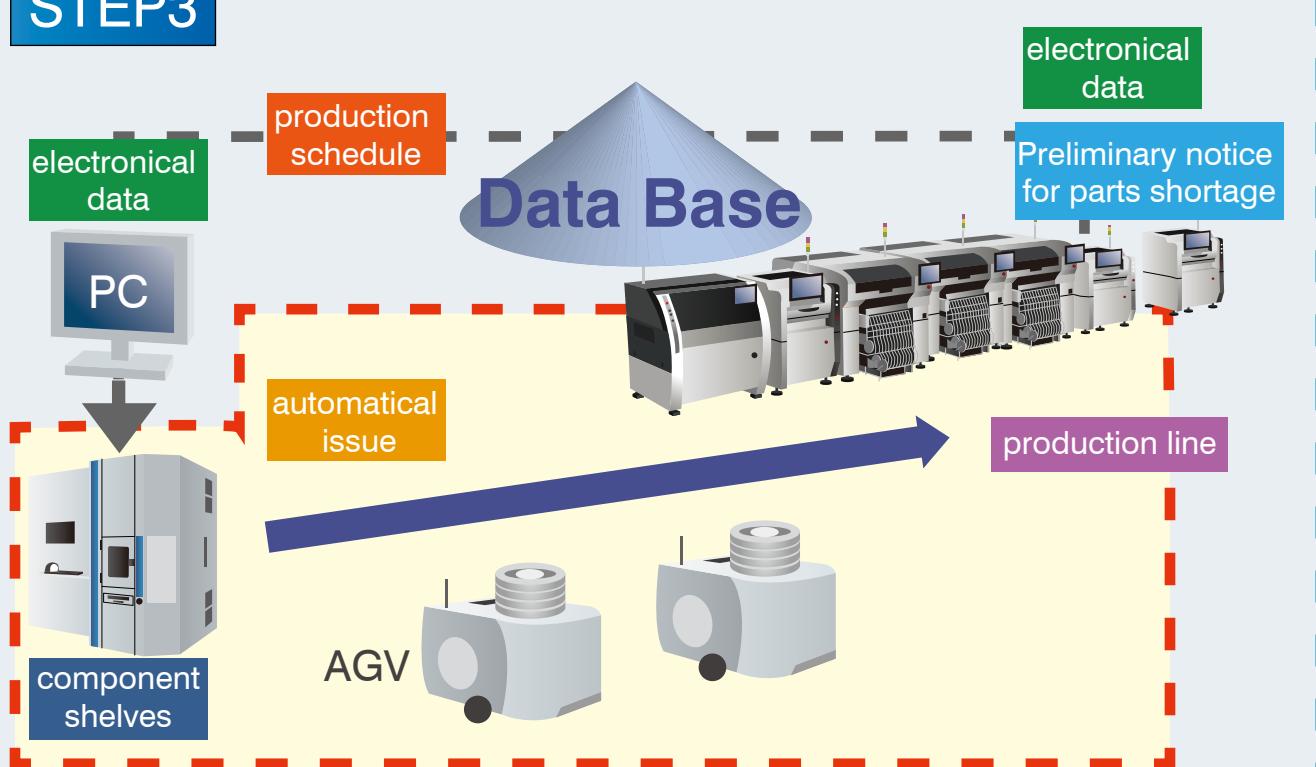

### STEP1

Sending the production schedule to the ISM as an electronic file, the ISM issues the components automatically.

### STEP3

Delivered components from ISM transports by using AGV

We will work with customers to realize further SMART FACTORY.

## ISM Series Fulfill lineup

Large capacity, Flexible configuration

### ISM 3600

Maximum capacity of 3,600 reels can be stored in double reel cases

Warehouse Kitting

Pulling to 54 reels at a time

Ultra-Flex model compact type

### ISM 1800

Maximum capacity of 1,800 reels can be stored in double reel cases

Local Line Replenishment

Pulling to 54 reels at a time

Large capacity model

### ISM 2000

The maximum storage capacity allows many packaging styles from a large reel to a JEDEC tray to be stored in the system.

Pulling to 27 reels at a time

Model dedicated for 7-inch reels

### ISM 1100

The space-saving feature allows up to 1,100 7-inch reels to be stored in the system.

Medium-sized general-purpose model

### ISM 500

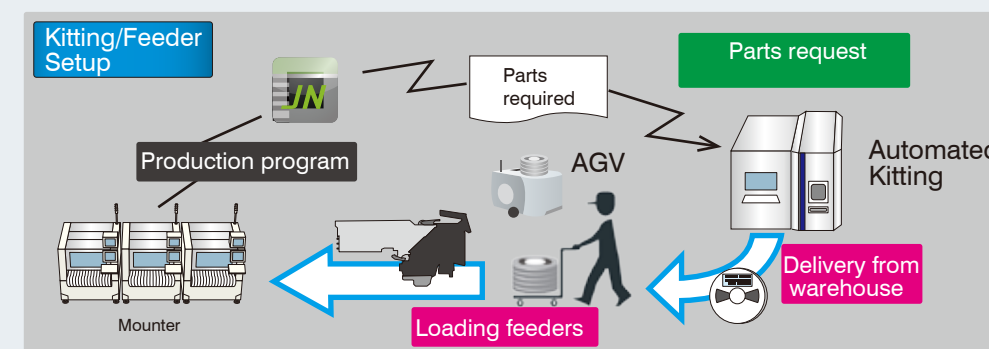

Excellent intelligent storage in general applications for a wide variety of components

## Interfaces with production management software

The ISM can load a BOM via software interface with ERP/MPR software\*<sup>1</sup>. An analysis is performed on the BOM to allow the operator to select the priority (received date, manufacturing date or minimum quantity needed). Based on the BOM, components are automatically extracted from the ISM by the production line, individual mounter, or one feeder bank of a specific mounter. This provides excellent flexibility for a variety of production environments and requirements. The ISM can receive data about the remaining quantity of components on each reel after production is completed.\*<sup>2</sup>  
The ISM is capable to communicate with X-ray Counters for real time part quantity updates.

\*1 JUKI IS Lite and competitor's production management system  
\*2 Contact us for the supported models or when JUKI IS Lite will support ISM.

ISM series case Quantity

model    sub model name    Total quantity				7 inch reel			13/15 inch reel							Remarks
